Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This office action is in response to applicant's amendment filed 6/9/06.

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention: **I)** Species of claim 97 drawn to a method of operating a device having a coil classified in class 320; and **II)** Species of claims 98-106 drawn to a method of operating a pump in class 417/53.

Species I vs. Species II, notice that the limitations "*a first, second and third electrical paths*" recited in the species of claim 97 are not part of the species of claims 98-106. Thus, the search required for Species I is not required for Species II, restriction for examination purposes as indicated is proper. Moreover, the method recited in claim 97 does not necessarily need to be for a pump but could be for any other device.

Species II vs. Species I. The limitations "*first pumping motion, second pumping motion, motion of a first portion of the fuel pump in a first linear direction, and motion of a first portion of the fuel pump in a second linear direction*" recited in the species of claims 98-106 are not part of the species of claim 97. Thus, the search required for Species II is not required for Species I, restriction for examination purposes as indicated is proper.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable

Art Unit: 3746

thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
